Group 3 Inequalities, Finding the Area/Volume/Net

Science: The Human Body/Human Body Project

This introductory human body unit takes the perspective that we can think about our bodies as being like a machine. We have parts for moving around, sensors, and a built-in computer. Students explore their senses and consider how the information we process helps us understand and react to our environment.

HOMEWORK ASSIGNMENTS

Monday-Thursday

Book in the Bag-GetEpic.com- Please make sure scholars are reading every night and completing Reading Log
