*"Dream more, learn more, and become more."*

Friday, September 11, 2020

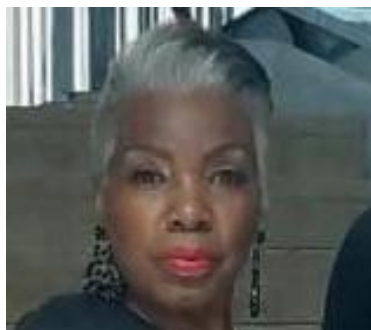

Greetings BBA Family, we finally made it to Day One! Our teachers and scholars managed a quick pivot to get our virtual learning off to a strong start. Obstacles come at us daily, but we are like water, moving around anything that tries to stand in our way. I was in awe at how hard our teachers have worked to get us to this point, but it's just the beginning! We are going to need all the support we can get in order to continue with our early success. So, it is very important that we build the teacher, parent, scholar relationship.

As we continue to move deeper into the virtual learning tunnel (don't worry, I see a light!), I want to remind you of a few important points: Studies show that it takes approximately 10 school days to become well-adjusted to a new learning environment. Please don't get discouraged.

It's okay to provide support to your scholars during this adjustment period, but remember, we want our learners to become independent and our teachers want you to be able to go about your day while they do the heavy lifting.

Our program is designed to nurture and encourage emotional and social growth while building academic and cognitive awareness and strength. Our emphasis is on an approach that relates to each child on his or her own level. Our program provides an interactive process to learning and is concerned with the development of the whole child. Scholars are provided with a strong foundation for learning, helping them to become lifelong learners. Thank you for entrusting your scholar to Building Blocks Academy.

Stay safe, stay healthy, and stay home,

Mrs. Burks-Ward  
**Headmaster**
